

Middle Harbor Yacht Club Sydney, Australia

Yup, it's all sand. No rocks or ledges. Sail very close to shore. The water is always warm, and the winds are most always favorable for sailors.

the boats remain in their slips.**

The bar is just a bit bigger than ours! Can our distributor get us Toohey's on tap?

Unfortunately, the Club had a recent fire in their store room; I couldn't buy club hats.

Captain Jack showed me some true Australian hospitality – he drove me back to the ferry so I wouldn't have to take a bus. Plus he gave me a driving tour of Manly Beach and some info about what boating life is like in Sydney.

Coincidentally, Jack lived in Massachusetts for awhile when he attended MIT. I couldn't leave without giving him a hat.
